

Franklin County Planning and Zoning Department Communications Tower – Proposed Activity

Pursuant to Appendix F of the Unified Land Use Regulations of Franklin County 2001, Zoning Permits are required for the following activities listed below regarding communications towers. Please check the activity applying to your proposal. This form is to be completed in conjunction with the "General Application Form."

- The attachment of additional or replacement of antennae or shelters to any tower existing on the effective date of this amendment or subsequently approved in accordance with these regulations, provided that the additional equipment shelters or cabinets are located within the existing tower compound area.
- The mounting of antennae on any existing building or structure, such as a water tower, provided that the presence of the antennae is concealed by architectural elements or satisfactorily camouflaged by painting of a color identical to the surface to which they are attached.
- The mounting of antennae on or within any existing high-voltage electric transmission tower, but not exceeding the height of such tower by more than 10 feet.
- The installation of antennae or the construction of a tower or support structure on buildings or land owned by the County following the approval of a lease agreement by the County Commission.
